BETTER BALANCE BETWEEN SWIMMING AND MAINTENANCE

OWNING A POOL SHOULDN'T REQUIRE A CHEMISTRY DEGREE.

Properly balanced water can improve safety for swimmers and extend the life of pool equipment. But often, maintaining that balance in residential pools requires frequent adjustments to things like pH level and oxidation reduction potential (ORP). Now, thanks to professional-grade Sense & Dispense technology that was previously unavailable for residential pads, pool owners can achieve beautifully balanced backyard-pool water—without all the headache and hassle.

Continuous sensing allows pool owners to monitor water balance quickly and easily

Algorithmic release maintains pH level and sanitization with small automatic adjustments

Flexible connectivity supports CO₂ tanks and acid feed systems

Compatible with Hayward AquaRite[®] and Omni[®] systems

SPECIFICATIONS

MODEL NUMBER	DESCRIPTION
HL-CHEM	Chemistry Automation ORP and pH Sense, ORP Dispense
AQL-CHEM2	Chemistry Automation pH Dispense Solenoid Valve for CO ₂ (120V)
AQL-CHEM4-ACID	Chemistry Automation pH Dispense for Acid Feed (120V)
